MR-RID Li-Po Battery Volt Indicator (7.4V Regulator Option)

1) This item is connectable Muchmore Super Linear Regulator(SLR) and monitors output voltage's status by its LED color.
2) Blue LED tells you SLR has enough voltage to operate, on the other hand Red LED is means it's time to recharge your battery(or SLR is overloaded).
3) Connect 2pins red connector to SLR's red connector then mount SLR in proper area with double sided tape where you can check LED color easily.

Cautions

1) Do not operate near water.
2) In case SLR is wet, disconnect it from battery and receiver then immediately dry it thoroughly.
3) In case SLR is wet by fuel, spay over and clean it with MuchMore Speed Cleaner 3(#MR-SC3) then dry completely before use.
4) Improper modifications is prohibited.
5) Do not connect the Volt Indicator to other devices.
